Rahul Dhiman

Full Stack Developer | Laravel | React | Python | REST APIs | AI Integration

Mohali, Punjab, India | +91-8894084509 | torahul12091@gmail.com | linkedin.com/in/raahuldhimanofficial | github.com/raahuldhiman-dev | raahuldhiman-dev.github.io

PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience building and maintaining web applications across multiple industry verticals using Laravel, PHP, JavaScript and React, with MySQL back ends and REST API integrations (payment gateways, Zoom, communication tools). Experienced across the full software development lifecycle, from requirements to production deployment, and increasingly adds AI/ML API integrations to production products. Open to remote roles.

TECHNICAL SKILLS

Front End: JavaScript, TypeScript, React, Next.js, Vue.js, jQuery, AJAX, HTML5, CSS3, Tailwind CSS, Bootstrap

Back End: PHP, Laravel, Node.js, Python, FastAPI, REST APIs, MVC Architecture, OAuth, Laravel Sanctum, Spatie Permission

Databases: MySQL, PostgreSQL, Redis, SQLite, Database Schema Design

Cloud and DevOps: Amazon Web Services (AWS: S3, DynamoDB, Rekognition), Google Cloud Platform (GCP), Oracle Cloud Infrastructure (OCI), Microsoft Azure, Cloudflare, Docker, GitHub Actions (CI/CD), Git, XAMPP

Integrations and AI: Stripe, Zoom API, Payment Gateways, WebSockets, GPT-4, OpenAI API, LangChain

PROFESSIONAL EXPERIENCE

Software Engineer (Full Stack, AI Integration), Softweaver Technologies (SWT) Mar 2025 - Present
Mohali, Punjab, India

- Design and develop software infrastructure for web-based platforms using PHP, Laravel and JavaScript frameworks.
- Integrate AI/ML APIs and third-party services into existing product pipelines.
- Contribute to architecture decisions, system design reviews and code quality standards.
- Collaborate with cross-functional teams on product delivery in an agile environment.

Full Stack Engineer (Laravel, PHP, React), Kwan Network Solutions Aug 2023 - Mar 2025
Sahibzada Ajit Singh Nagar, Punjab, India

- Developed and maintained PHP/Laravel back ends powering business-critical web applications.
- Built responsive front-end interfaces with JavaScript, jQuery and Bootstrap, improving UX across client portals.
- Designed and optimized MySQL database schemas for high-traffic applications.
- Integrated REST APIs and third-party services, including payment gateways and communication tools.
- Participated in the full software development lifecycle, from requirements gathering to production deployment.

Full Stack Engineer, Canvas Craft Media Aug 2022 - Aug 2023
Sahibzada Ajit Singh Nagar, Punjab, India

- Built and maintained client websites using HTML5, CSS3, JavaScript and jQuery.
- Developed interactive UI components and landing pages for marketing campaigns.
- Translated Figma and Canva mockups into responsive web pages; supported PHP and Laravel back-end integrations.

PHP Developer (Laravel, JavaScript), WorksDelight Feb 2022 - Aug 2022
Mohali, Punjab, India

- Built and maintained PHP web applications using Laravel and MVC architecture.
- Implemented dynamic front-end interactions using JavaScript, jQuery and AJAX; prototyped with Bubble.io.

PROJECTS

eCommerce Platform

Tech: Laravel 11, PHP, MySQL, Spatie Permission, React

- Built a Laravel 11 multi-role eCommerce platform with Admin, Merchant and Customer portals, role-based permissions (Spatie), product management and order tracking.

Appointment Booking System

Tech: Laravel, Vue.js, MySQL, Zoom API, Stripe

- Built a multi-role booking platform with Zoom API integration, role-based access control, real-time notifications, calendar sync and Stripe payments.

Laravel Chat App | github.com/raahuldhiman-dev/Laravel-Chat-App

Tech: Laravel 13, PHP, Sanctum, Laravel WebSockets, Vue 3, Pinia, Vite, Docker

- Built a multi-user real-time chat app with Sanctum token authentication, direct and group conversations, file attachments, unread tracking, typing indicators and presence via self-hosted WebSockets.

AI Content Generator

Tech: Laravel, PHP, GPT-4 (OpenAI API), React, MySQL, Redis, REST API

- Built a Laravel microservice powered by GPT-4 for SEO and marketing content, with queue-based processing, a REST API, multi-language support and a React dashboard.

EDUCATION

Master of Computer Applications (MCA), Artificial Intelligence & Machine Learning, Amity University Online — Mar 2024 - Apr 2026

Bachelor of Computer Applications (BCA), Himachal Pradesh University — 2018 - 2021
